PROFESSIONAL SUMMARY

Full-stack web developer with hands-on experience building responsive websites, web applications, AI-powered systems, automation workflows, and database-driven platforms. Skilled in JavaScript, PHP, React, Node.js, Express.js, MySQL, REST API integration, and modern development tools such as Git, GitHub, VS Code, Vite, Postman, Vercel, and Render. Experienced in using AI-assisted tools to improve development efficiency, debugging, and code quality. Highly adaptable, detail-oriented, and comfortable working independently in a remote setup.

PROJECT & FREELANCE EXPERIENCE

Full-Stack Developer (Project-based) | Yugobooth: Automated Photobooth System

2025 – Present

- Developed and deployed a fully automated photobooth system integrating hardware, software, and payment processing
- Designed end-to-end workflow including payment, layout selection, photo capture, filtering, printing, and QR softcopy download
- Implemented bill acceptor integration to eliminate manual payment handling
- Built an admin dashboard with real-time analytics for revenue tracking and session monitoring
- Configured temporary public access for QR downloads using Ngrok and Cloudflare Tunnel
- Maintains and supports a live production system used in real business operations

Technologies: PHP, JavaScript, MySQL, Python, Arduino, FFmpeg, Ngrok, Cloudflare Tunnel

Full-Stack Developer (Personal Project) | GaBayan AI: Legal Guidance Assistant

2026

- Developed and deployed an AI-powered legal guidance assistant for public attorney preparation
- Built a modern responsive chat interface with real-time AI interactions and quick legal question prompts
- Integrated Google Gemini AI with a Node.js and Express.js backend for secure AI request handling
- Deployed frontend and backend services using Vercel and Render
- Implemented legal safety guidelines and disclaimer-based response structure

Technologies: React, Vite, Node.js, Express.js, JavaScript, CSS, REST API, Google Gemini AI, Vercel, Render

Full-Stack Developer (Project-based) | BBridge: Barangay Management & Public Service System

2025

- Designed and developed a web-based management system for documents, scheduling, and public service requests
- Implemented role-based access control for secure multi-user access
- Integrated Tesseract OCR to automate receipt verification and reduce manual processing
- Developed a notification system to improve response tracking and operational efficiency
- Integrated geolocation and mapping functionality using OpenStreetMap API

Technologies: PHP, JavaScript, MySQL, Tailwind CSS, Tesseract OCR, OpenStreetMap API

IoT Developer (Capstone Project) | HydroTech: Smart IoT Water Dispenser

2024 – 2025

- Led development of an IoT-based automated water dispensing system

- Designed hardware architecture using Arduino and ESP8266
- Implemented QR-based authentication and automated dispensing logic
- Integrated hardware system with a web dashboard for real-time monitoring
- Performed testing, debugging, and system optimization

Technologies: PHP, JavaScript, MySQL, Arduino, ESP8266

WORK EXPERIENCE

Information Technology Intern | DepEd – Schools Division Office, Pampanga

2025

- Provided technical support and troubleshooting assistance to office staff
- Managed inventory tracking and verification of ICT equipment
- Created reports and documentation for office operations
- Developed Excel-based automation tools to improve data processing efficiency
- Encoded and maintained records for 500+ schools using Microsoft Excel
- Created video tutorials and user guides for Microsoft account management and 2FA processes

Computer Shop Assistant / IT Support | Family-Owned Computer Shop – Guagua, Pampanga

2014 – 2018

- Assisted customers with computer usage, troubleshooting, and technical concerns
- Installed, configured, and updated software and operating systems
- Performed hardware maintenance, upgrades, and basic repairs
- Managed customer sessions, billing, and system monitoring
- Supported LAN setup and network maintenance

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript (ES6+), Python, C++, SQL

Web Development: HTML5, CSS3, Tailwind CSS, Bootstrap, React, Node.js, Express.js, WordPress / Elementor, Vite, Responsive Design, Cross-Browser Compatibility, UI/UX Implementation

Databases & APIs: MySQL, REST API Development, JSON, Webhooks

AI & Automation: Claude, ChatGPT, Google Gemini AI, AI Chatbot Integration, AI-Assisted Development, Workflow Automation

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Render, Ngrok, Cloudflare Tunnel, Trello, Jira, Microsoft 365, Zoho, Hostinger

Hardware & IoT: Arduino, ESP8266

Other Tools & Services: FFmpeg, Tesseract OCR, PayMongo

EDUCATION

Pampanga State University | Pampanga, Philippines

2021 – 2025

Bachelor of Science in Information Technology

CERTIFICATION

Civil Service Examination – Professional Level Passer

October 2025
